

Fifth/Sixth Grade at Veritas Classical Schools

The rich content of American History challenges the students from the cotton gin to the Civil War and then on to the space race. The intense study of the geographical features of North America including the study of state capitals makes this a fabulous foray into our American roots. **Corrie Ten Boom, The Slave Dancer and the Phantom Tollbooth** will capture the imagination of readers. The Biblical timeline reaches its end in Revelation and **students are encouraged to apply Biblical character throughout their academic and social lives.** The study of grammar, composition, vocabulary math, science and critical thinking help middle school students ready themselves for the challenge of Junior High.
