## Veritas Classical Schools

Students will learn economic principles and study the history of government in the United States from colonial times and forward. An intensive study of the Bill of Rights will solidify their understanding of American citizenship. Systematic Theology will be explored by means of a thorough study of each students' personal church. Discussion and research of core Christian beliefs will bring clarity to scriptural truths. Literature, which highlights political structures, such as John Adams biography and the Magna Charta will unify the study of Government, Economics and Literature. Students can choose to deepen their study through languages and Personal Finance.
